# Bas-Oil®

## Red and Blue Oil-Soluble colorants

### GENERAL DESCRIPTION:

**Bas-Oil® Red** and **Bas-Oil® Blue** colorants are designed specifically for use as spray pattern indicators in oil-based herbicide solutions such as Garlon® 4.

**Product Benefits:** **Bas-Oil Red** and **Bas-Oil Blue** help make basal, dormant stem and cut-stump herbicide applications virtually foolproof by clearly and brilliantly identifying treated areas. This helps eliminate wasted time and material that can result from unintended double applications. It also helps ensure that applications to desired plant material have been successfully achieved.

### APPLICATIONS:

**Low Volume or Concentrated Applications:** 0.5 fl. oz. to 2.5 fl. oz. per gallon of spray solution (15 to 74 mL per 4 L).

**Broadcast Application:** 6.5 fl. oz. to 32 fl. oz per 100 gallons of spray solution (190 to 946 mL per 400 L).

Always add **Bas-Oil** to the spray solution following the pre-mixing of the herbicides. **Bas-Oil Red** is packaged in convenient, pint "squeeze-n-measure" plastic containers; **Bas-Oil Blue** is available in gallon jugs.

### COMPATIBILITY:

**Only use Bas-Oil Red or Bas-Oil Blue with oil-based herbicides and hydrocarbon carriers** such as a penetrant-diluent (ULV oils, terpenes, diesel fuel or kerosene). **Never mix with non-oil based herbicides or in tank mixes containing less than 60% oil-based components.**

**Duration of Color:** **Bas-Oil** is a long-lasting indicator. Once given time to dry on brush or trees, rain water will not wash it off. Color should be expected to last at least six months.

**Alternative Use:** Use as a hydraulic oil colorant at a rate of 1/2 oz. per each 5 gallons ( 15 mL per 19 L) of oil to help detect hydraulic oil leaks from equipment onto turf.

### LIMITED WARRANTY:

Becker Underwood offers for sale the product Bas-Oil®; there are no warranties of merchantability or fitness for a particular purpose which extend beyond the description of the product in this specification sheet or other product literature. Liability of Becker Underwood is limited to replacement of any product which does not meet these specifications. Suggestions for use and information of results obtained with its use are assumed by the manufacturer to be reliable. Since conditions of use are outside the control of Becker Underwood the buyer is responsible for all results, including injury and damage stemming from the use of this product alone or in combination with other materials.
